

PROJECT MANAGEMENT CONCLAVE, 2018

STRUCTURED PROJECT MANAGEMENT - THE KEY TO PROJECT SUCCESS

JUNE 2-3, 2018

MANAGEMENT TRAINING INSTITUTE, STEEL AUTHORITY OF INDIA LTD.

RANCHI, JHARKHAND

www.pmi.org.in/conclave

INTRODUCTION

As per National Steel Policy 2017 India has to produce 300 MT of steel by 2030-31, which will call for massive capacity expansion for most of the steel producers in order to protect their respective market shares.

This in turn will require execution of large scale projects in the steel industry under very complex situations with the assimilation of new technology, integration and management of various stakeholder interests under a very dynamic business environment.

This calls for urgent action to identify skill-sets and methodologies that will enable players within the sector to effectively fulfil this growing demand.

OBJECTIVE

The steel industry in our country is at a mature stage with generations of learning and best practices. To learn from past experiences and adherence to tried and tested project management methodologies has become imperative for organizations, particularly those dealing in projects involving high costs and executed in a complex environment.

The success of a project lies in the interdependency, interaction and coordination among three major stakeholders:

- Project Owner / Client

- Consultant

- Contractor / Project Executor

To ensure key stakeholders contribute significantly towards the success of a project, an organization needs to integrate a structured project management methodology into their work ethos.

With this thought in mind, SAIL - Management Training Institute (MTI) and PMI will co-host the Project Management Conclave, 2018. Aptly themed - **Structured Project Management - The Key to Project Success**, the conclave will focus on ideation from thought leaders and key stakeholders in the Indian steel industry to overcome industry challenges to help organizations gear up for the massive change to come. The event will also serve as a great networking platform where delegates can interact with peers and share knowledge.

About SAIL

Steel Authority of India Limited (SAIL), a Public Sector Enterprise, is India's largest steel producing company. SAIL is among the seven "Maharatnas" of the country's Central Public Sector Enterprises. SAIL has five integrated steel plants at Bhilai, Bokaro, Rourkela, Durgapur and Burnpur. Apart from this it has three special steel plants at Salem, Durgapur and Bhadravati and subsidiaries located in different parts of the country. There are also some dedicated specialized units engaged in Research and Development, Consultancy, Environment Management, Coal Supply, Raw Material and Logistics and Management Training. SAIL manufactures and sells broad range of steel products in the domestic and overseas market.

Since its inception in 1959, SAIL has been instrumental in laying a sound infrastructure for the industrial development of the country. Besides, it has immensely contributed to the development of technical and managerial expertise. It has triggered the secondary and tertiary waves of economic growth by continuously providing the inputs for the consuming industry.
